

Youth Career Exploration Program

Background

- This program was founded to assist students in their search for a career.
- To be happy, one must find a career that complements one's talents, ambitions and abilities.
- Each individual has unique ambitions. Personal characteristics, which include personality, abilities, education, and experience, are instrumental in choosing the right career.

Program

- Monthly meetings introduce students between grades 8-12 to various careers.
- The speakers are professionals in their field and have many years of experience.
- Students are introduced to the pros and cons of specific careers, as well as the education path required to pursue each career.
- This program provides students with opportunities to network with their peers and professionals.
- Students will be given information related to seminars, workshops, college visits, and site visits.
- Students will be provided with opportunities to volunteer, shadow, and intern in careers that interest them.
